The Honorable Aisha Wahab,
Senate Committee of Agriculture and Natural Resources
1021 O Street, Room 3044
Sacramento, CA 95418

Re: Senate Bill 24 - Support

Dear Senator Aisha Wahab and Agriculture and Natural Resources Committee members,

We are writing in support of Senate Bill 24, Energy: Affordability and Efficiency Program.

California is second when it comes to energy consumption in the United States. This is caused by multiple reasons, such as businesses, homes, etc. California's energy consumption can easily influence homeowners and tenants, but also the environment. Our particular focus is on, how Senate Bill 24 greatly benefits homeowners and tenants.

Senate Bill 24 benefits homeowners and tenants, because it makes energy much more affordable, and reliable. This causes homeowners and tenants to have to pay less because their electrical uses expenses do not rapidly grow. By making homes electrical uses more affordable it takes financial burdens off of homeowners and tenants, allowing them to have an easier time affording their

other essentials. Senate Bill 24 not only makes energy usage more affordable, but also more efficient. The energy efficiency that will be granted to homes that experience a high energy burden, will benefit them greatly, by allowing them to continue their household routines, but without using so much energy to do so.

For these reasons, we urge the support of Senate Bill 24.

Sincerely,

CA Housing
