Ideology for related issues-

Economic: Supports policies intended to create jobs and attract investment. As well as infrastructure investment as an economic development tool. Is for pro worker, pro infrastructure, pro economic development, and generally aligned with organized labor.

Social: Public safety is a major concern, in favor of law enforcement and veterans, community service. Like housing and services for people experiencing mental illness and

homelessness, using a service approach to his goal of public safety. Emphasizes civil liberties, community safety including protecting immigrant residents from wrongful targeting.

Environmental: Supports cleaner energy but is heavily connected to economic development, technology, and infrastructure. Involved with hydrogen energy he has helped create a favorable environment for hydrogen development through investment and reduced barriers. Serves as a chair Senate's Select Committee on Hydrogen Energy.

2016 breakdown: Democrat- 66.5%, Republican-27.9%

2020 breakdown: Democrat- 65%, Republican-32.9%

3 specific issues that are important to my constituents: Cost of living/jobs, residents are concerned with wages, employment, inflation, and cost of everyday living. Public safety/homelessness, focused on concerns of crime and maintaining a safe and functional community. Infrastructure, maintaining local infrastructure and helps create jobs.

Positions on-

Economic: Concerned about cost of living, jobs, and inflation. Supports economic opportunity and good paying jobs, as well as housing affordability

Social: Supportive of government services that help families and working-class including education, healthcare, and assistance for residence. Public safety is important. Immigration is concerning because of the large Hispanic/Latino population.

Environmental: Concern about pollution, water supply, climate impacts, and wildfires. Interest in clean energy and reducing pollution. 55% said stricter environmental regulations were worth the cost and 43% said they cost too many jobs and hurt the economy.
